EDUCATION

Sacred Heart University M.S. in Computer Science & Information Technology GPA: 8.89/10 Selected Coursework: UX Design, Advanced Web Development, Human-Computer Interaction, Mobile Application Development, Data Structures and Algorithms, Software Engineering	Fairfield, CT 09/2023 - 12/2024
AAR Mahaveer Engineering College (JNTU) B.Tech in Computer Science Engineering GPA: 7.25/10 Selected Coursework: Object-Oriented Programming, Database Management Systems, Web Technologies, Software Testing, User Experience Design, Human-Computer Interaction	Hyderabad, India 09/2019 - 07/2023

SKILLS

- Design Tools:** Figma, Adobe XD, Sketch, Photoshop, Adobe Illustrator
- UX/UI Methods:** User Research, Wireframing, Prototyping, Usability Testing, Accessibility (WCAG), Inclusive Design
- Frontend Development:** HTML5, CSS3, JavaScript (ES6+), React.js, React Native, Responsive Design
- Styling & UI:** Styled Components, Tailwind CSS, Bootstrap
- Development Tools:** Git/GitHub, VS Code, Vite, npm, Chrome DevTools
- AI Tools:** ChatGPT/Claude (research synthesis, ideation), GitHub Copilot (prototyping), Midjourney (visual exploration)
- Backend & APIs:** Node.js, RESTful APIs, JSON, API Integration
- Certifications:** Google UX Design Professional Certificate, Communication Skills Certificate, Python Programming Certificate

EXPERIENCE

Product Designer & UI Engineer, Starteryou Inc., New York, NY (Remote) - Lead end-to-end product design and development for mobile and web applications , from concept and prototyping through production implementation using React.js, React Native, and Figma - Design and build accessible, performance-optimized UI component library and design system , bridging design specifications with scalable front-end architecture - Own the design-to-code workflow: translate user needs into interactive prototypes , validate through testing, then implement pixel-perfect, responsive interfaces across platforms - Leverage AI tools to accelerate research synthesis, design iteration , and code generation while maintaining high standards for craft and user experience - Partner with cross-functional teams in Agile environment to shape product strategy, ensure technical feasibility, and deliver cohesive experiences balancing user needs with business goals	02/2025 - Present
---	--------------------------

Graduate Assistant, Sacred Heart University • Assisted instructors with course planning and student engagement initiatives, facilitating learning for 50+ students across multiple computer science courses • Led tutoring sessions and clarified technical concepts including data structures , algorithms, and web development to support diverse learning needs • Evaluated student assignments and provided constructive feedback to enhance understanding and improve code quality , contributing to a 15% improvement in average class performance • Encouraged peer collaboration and built supportive learning environment through organized study groups and office hours	05/2024 - 07/2024
--	--------------------------

PROJECTS

Portfolio (CTO Of Starteryou) Designed and developed responsive portfolio showcasing design thinking and technical implementation skills using React with modern UI featuring glass-morphism effects, smooth animations, and gradient backgrounds - Led design process from wireframes to high-fidelity prototypes to production code, demonstrating end-to-end ownership of product experience with mobile-first responsive approach
Popnwrap (E-Commerce Site) Led product design and full-stack development for e-commerce platform, conducting user research to inform shopping cart UX, checkout flow design, and integrated Stripe payment experience - Created design system and built responsive React components with Node.js backend, implementing RESTful API architecture and MongoDB database for scalable product management
Art Gallery Management System Designed and developed user-centered gallery management interface with focus on accessibility and visual hierarchy, implementing authentication flows and intuitive artwork categorization - Built responsive React application with modern component architecture, creating seamless cross-device experience for browsing and managing art collections
