EDUCATION

Sacred Heart University M.S. in Computer Science & Information Technology GPA: 8.89/10 • Selected Coursework: Advanced Web Development, Data Structures and Algorithms, UX Design, Cloud Computing, Mobile Application Development, Software Engineering	Fairfield, CT 08/2023 - 05/2024
AAR Mahaveer Engineering College (JNTU) B.Tech in Computer Science Engineering GPA: 7.25/10 • Selected Coursework: Object-Oriented Programming, Database Management Systems, Web Technologies, Software Testing, User Experience Design, Human-Computer Interaction	Hyderabad, India 08/2019 - 08/2023

SKILLS

- **Languages and Technologies:** HTML, CSS, JavaScript, React
- **Frameworks and Tools:** React, Node.js, Django, Flask, Bootstrap, Responsive Design, RESTful APIs
- **Design Tools:** Figma, Adobe XD, Sketch, Photoshop, Canva
- **Certifications:** Google UX Design Professional Certificate, Communication Skills Certificate, Python Programming Certificate, Content Creator

EXPERIENCE

UI/UX Designer, Stateryou (Remote) • Handle all design needs for the startup including mobile app interfaces, web design, social media graphics, flyers and brand assets to establish strong visual identity across all customer touchpoints • Design user-centered mobile and web experiences using Figma and Canva with focus on intuitive navigation, accessibility standards, and modern UI/UX principles • Maintain brand consistency across digital products and marketing materials by creating and enforcing comprehensive design system guidelines and component libraries • Conduct usability testing sessions with target users and iterate designs based on user feedback and analytics data to improve product experience and conversion rates • Collaborate with cross-functional teams including developers, and marketing to deliver cohesive solutions that align with business objectives and technical constraints • Lead design sprints and brainstorming sessions to conceptualize new features and improvements for startup's core product offerings • Create wireframes , prototypes , and high-fidelity mockups for new product features and conduct stakeholder presentations to gather feedback	02/2025 - Present
Graduate Assistant, Sacred Heart University • Assisted instructors with course planning and student engagement initiatives, facilitating learning for 50+ students across multiple computer science courses • Led tutoring sessions and clarified technical concepts including data structures , algorithms, and web development to support diverse learning needs • Evaluated student assignments and provided constructive feedback to enhance understanding and improve code quality , contributing to a 15% improvement in average class performance • Encouraged peer collaboration and built supportive learning environment through organized study groups and office hours	05/2024 - 07/2024

PROJECTS

Portfolio (CTO Of Starteryou) • Designed and developed responsive portfolio site using React with modern glass-morphism UI featuring frosted-glass card effects and vibrant gradient backgrounds (coral pink to sky blue) • Built interactive components with smooth hover animations and integrated professional sections for position, contact, and resume with mobile-first responsive design	
Popnwrap (E-Commerce Site) • Built a full-stack e-commerce platform with user authentication, shopping cart functionality using local storage, and integrated Stripe API for secure payment processing • Created admin dashboard for product management and developed responsive design using React, Node.js, MongoDB with RESTful API architecture	
Art Gallery Management System • Developed a UI for organizing and displaying gallery artworks with user signup/authentication system and visual catalog featuring filtering and categorization capabilities • Implemented responsive design for cross-device accessibility using React with modern component architecture and state management
